Total	132	67	27	38

A total of 132 watershed rehabilitation projects have been funded in 21 states. Sixty-five projects have been authorized; 38 of these have been completed and the remaining 27 are in implementation (design or construction). Sixty-seven projects are in the planning stage. (See the reverse side of this page for a complete listing of projects by state.)

Watershed Rehabilitation Projects Funded in Fiscal Year 2005

The FY 2005 appropriations bill included \$27,280,000 for watershed rehabilitation. This allowed funding for planning and design of 87 projects in 21 states (including 19 new projects in 11 states). Funds were also provided for construction and implementation of rehabilitation plans on 12 dams. Assessments of 174 dams in 38 states will also be completed to determine the condition of the dams and the need for rehabilitation.

NRCS state conservationists originally requested \$46 million for 123 projects in 21 states for fiscal year 2005. Funds were not available to address 36 requests for new watershed rehabilitation projects.

For additional information about watershed rehabilitation go to the Natural Resources Conservation Service website, www.nrcs.usda.gov and click on "Programs" and then on "Watershed Rehabilitation".

National NRCS contact for watershed rehabilitation:
Russell Morgan phone: (202) 690-4231
email: Russell.Morgan3@usda.gov

*Plan authorized: plan is being implemented (design and construction)
